

SINGING INSTITUTE 2015

Memorial University of Newfoundland and The Singing Network collaborate to offer two graduate courses as part of The Singing Institute in the areas of vocal and choral pedagogy and singing traditions and practices.

As an Institute participant, you will register for one of the two Fall semester 2015 courses described below. These two courses (cross-listed with Faculty of Education and School of Music) will be offered in a blended format including online components via D2L (e.g., readings, postings, discussions) as well as on-site/campus participation throughout the international Symposium on Singing and Song, October 1-4, 2015, at Memorial University.

Throughout the Symposium, you will have opportunities to participate in keynote and delegate presentations, workshops, lecture-recitals, rehearsals, panel workshops and roundtable dialogues, concerts and social and networking events... and earn graduate credit at the same time! Come work with, and be mentored by, the world's finest guest scholars, researchers, artists, conductors, composers, and pedagogues working in diverse areas related to singing and song.

Take advantage of this unique opportunity and be in one of the most beautiful, musical intimate settings in the world – St. John's, Newfoundland and Labrador, Canada.
